

Calix introduces during the spring a replacement for the present UMV heater. The new model with designation **PH** (Professional Heater), has some product improvements such as the size, which simplify the installation. The new **PH** is also equipped with a rubber sealing for increased service life and reliability.

Our thoroughly-tested new **PH** heater is equipped with overheating protection and a thermostat. The **PH** is delivered as before as a complete kit with heater, cables, bracket, etc. or as only the heater with bracket.

The picture shows the product in actual size.
